

ICE WORLD

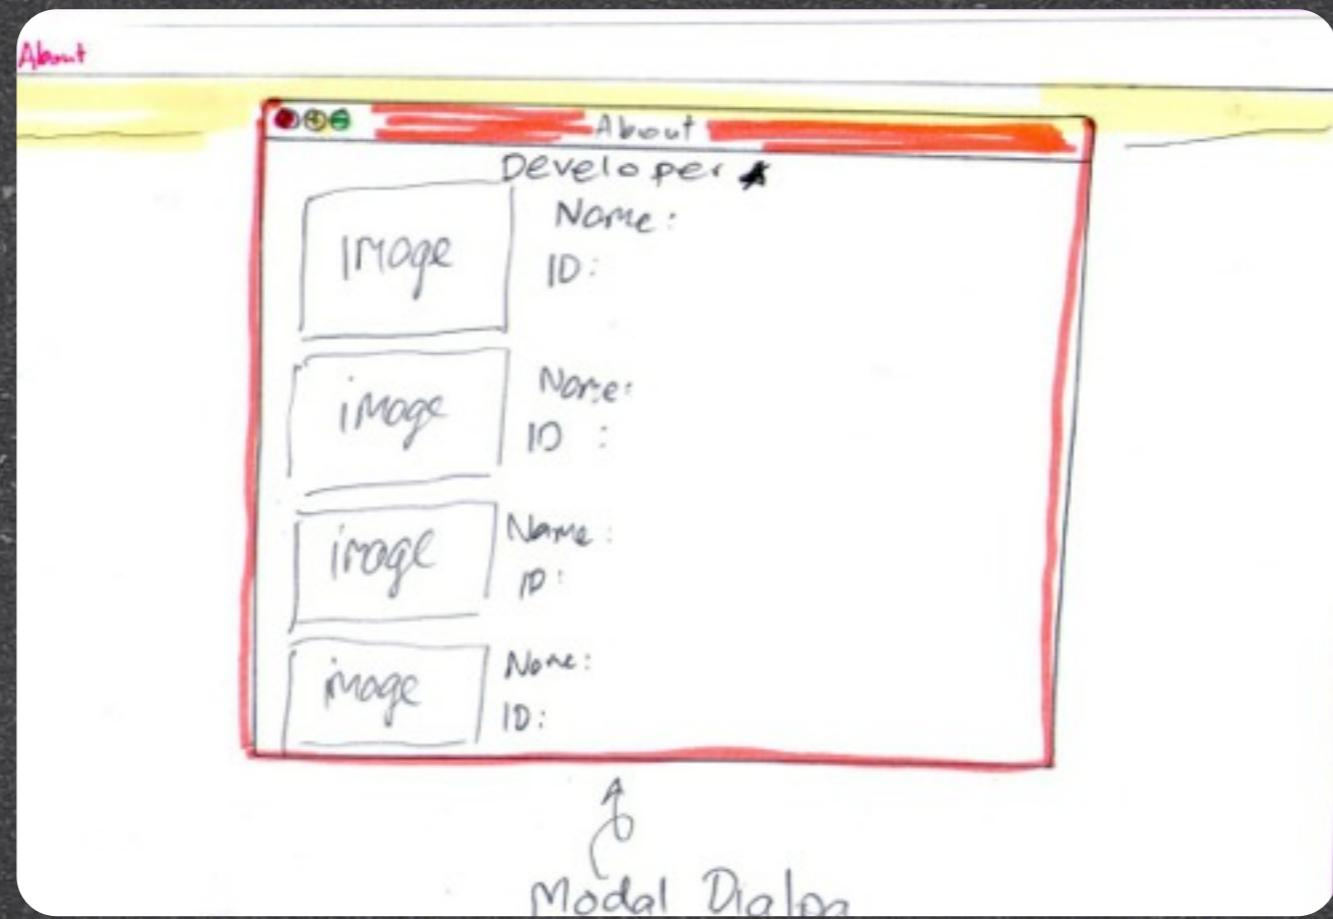

Batra Development

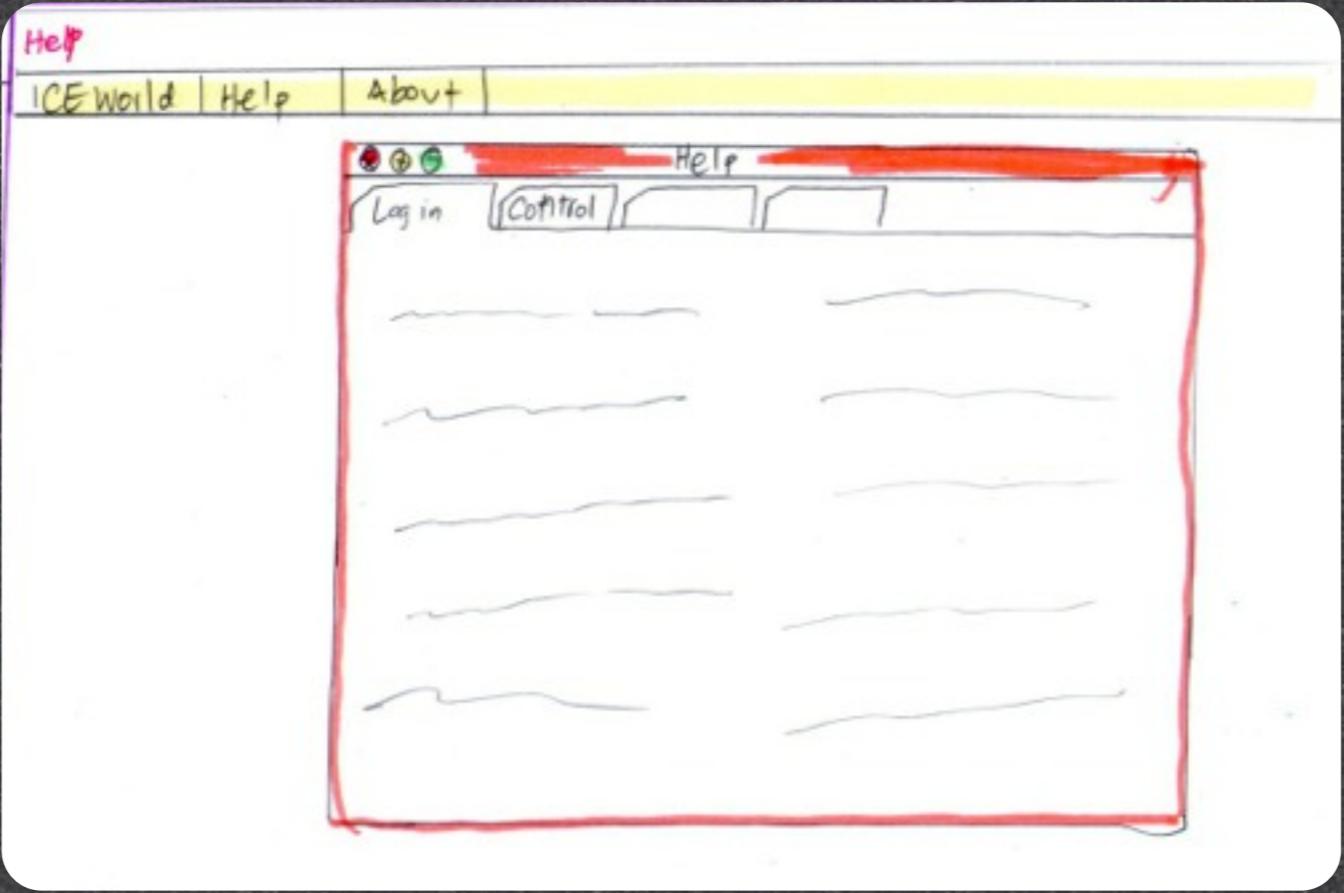

- Our company's name and logo will be shown on the screen while it's loading.

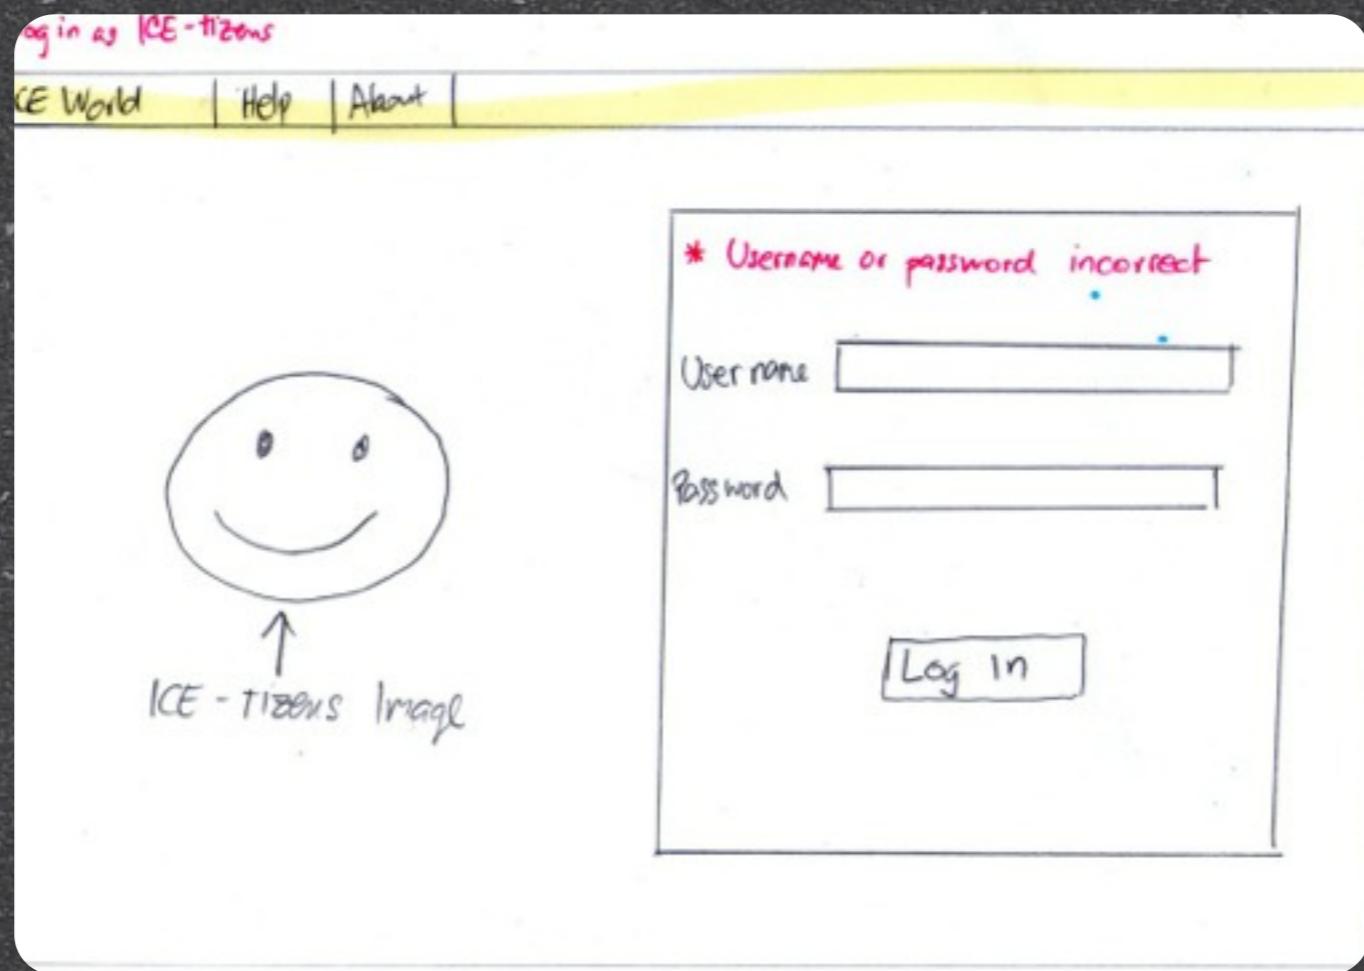

- On the main screen, we have the menu bar which consists of ICE WORLD, Help, and About.
- We also have the sub menu bar which are log in as alien, log in as ICE citizens and quit.
- When you click Quit item, it will be off from the Main Screen and back to the PC desktop.
- For ice world, help, about, log in as alien, log in as ice

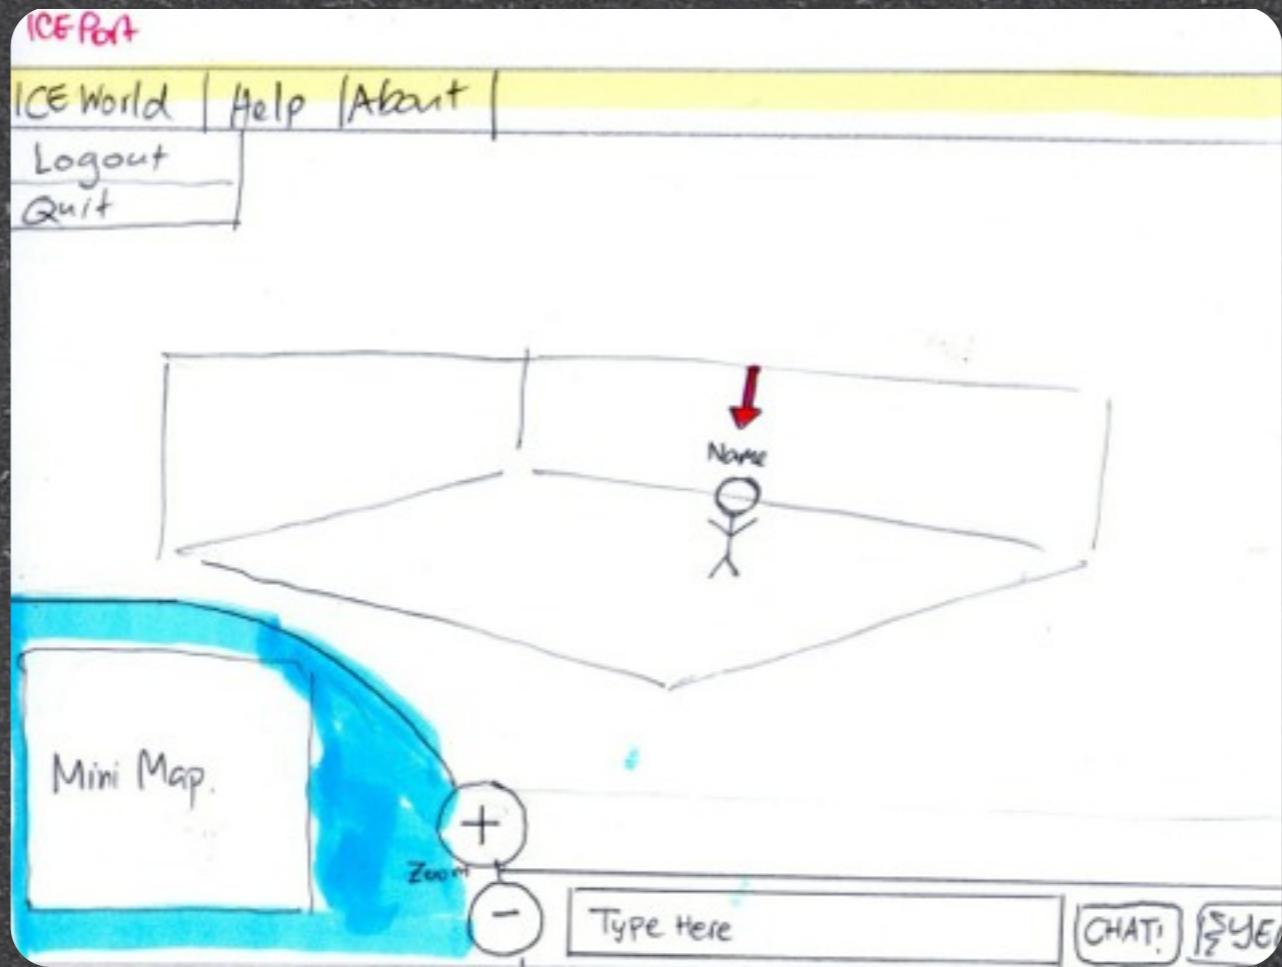

- For this page, we use a modal dialog(like pop-up).
- After you click on About menu item(on the menu bar), the about page will be shown up on the screen (like the pop up of the advertisement). which consists of our group members info.
- The info. includes IDs, full names, nicknames, and pictures of us.

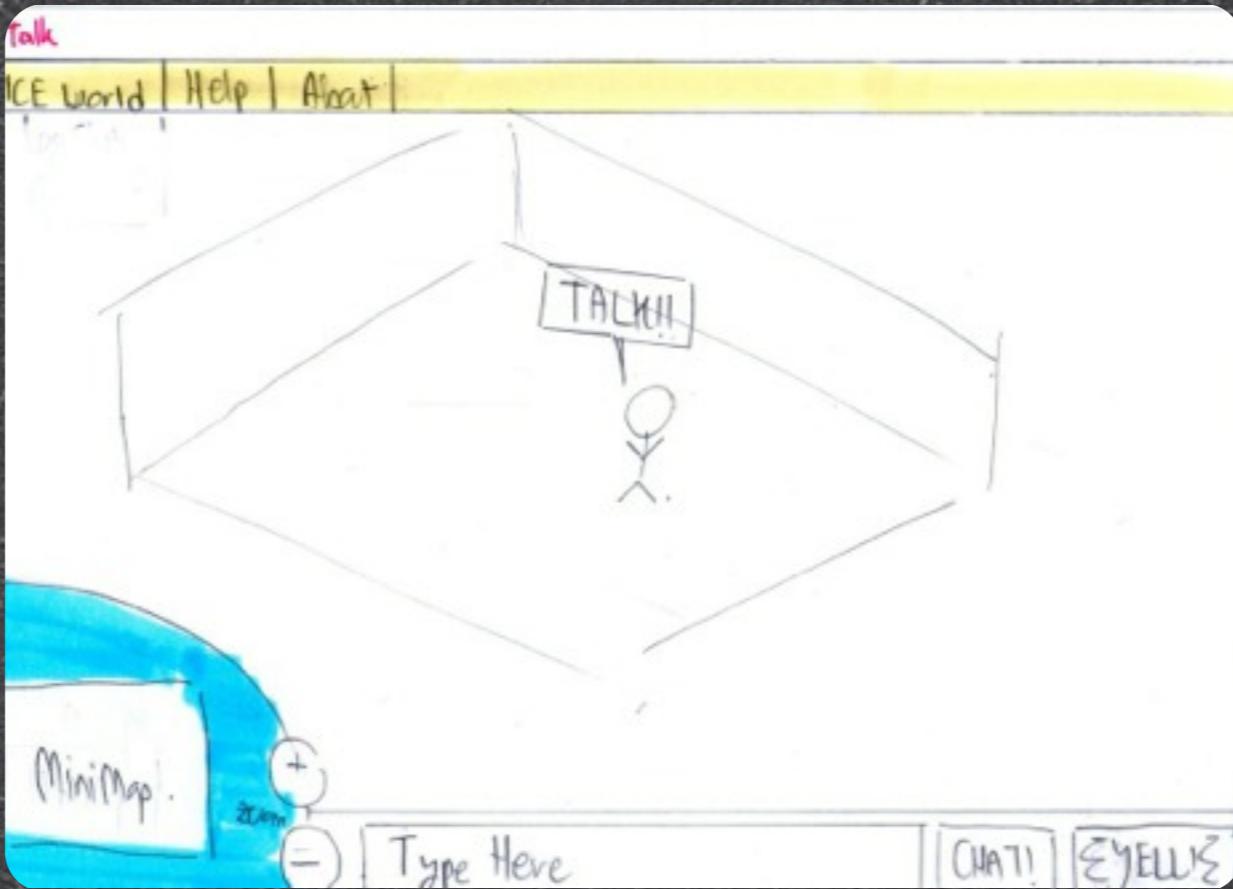

- After you click Help menu item (on the menu bar) or it can also be activated by pressing F1.
- We use a non-model dialog and it contains the user's manual showing the details and how to use the program.

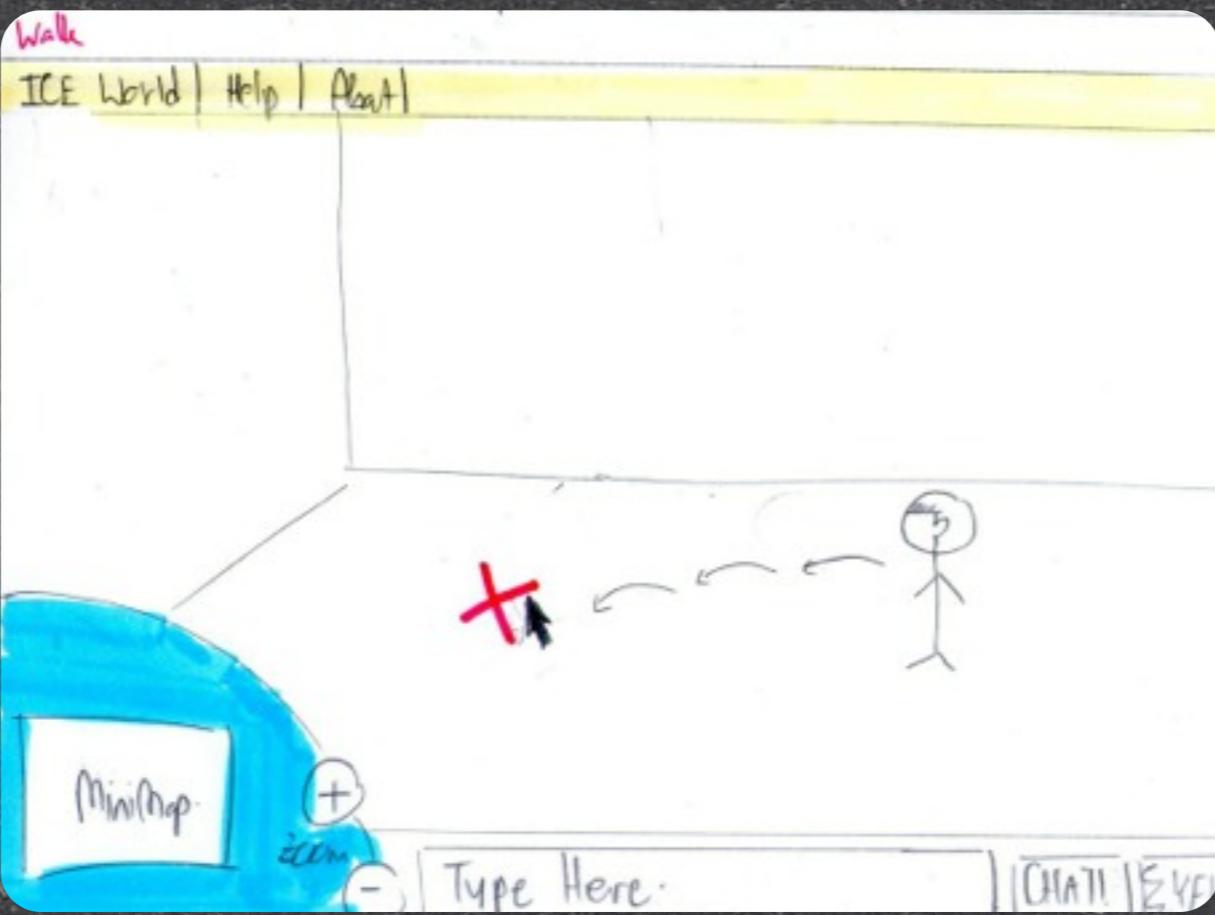

- After you click the Log in as ICE-tizens(on the sub menu bar), there will be the text box on the right for you to sign in(user and password).
- On the left hand side, it will be the image of some of the characters from ICE World.
- On the top of the text box will be shown up the red letter(username or password is incorrect) if you type the user or the password wrong.

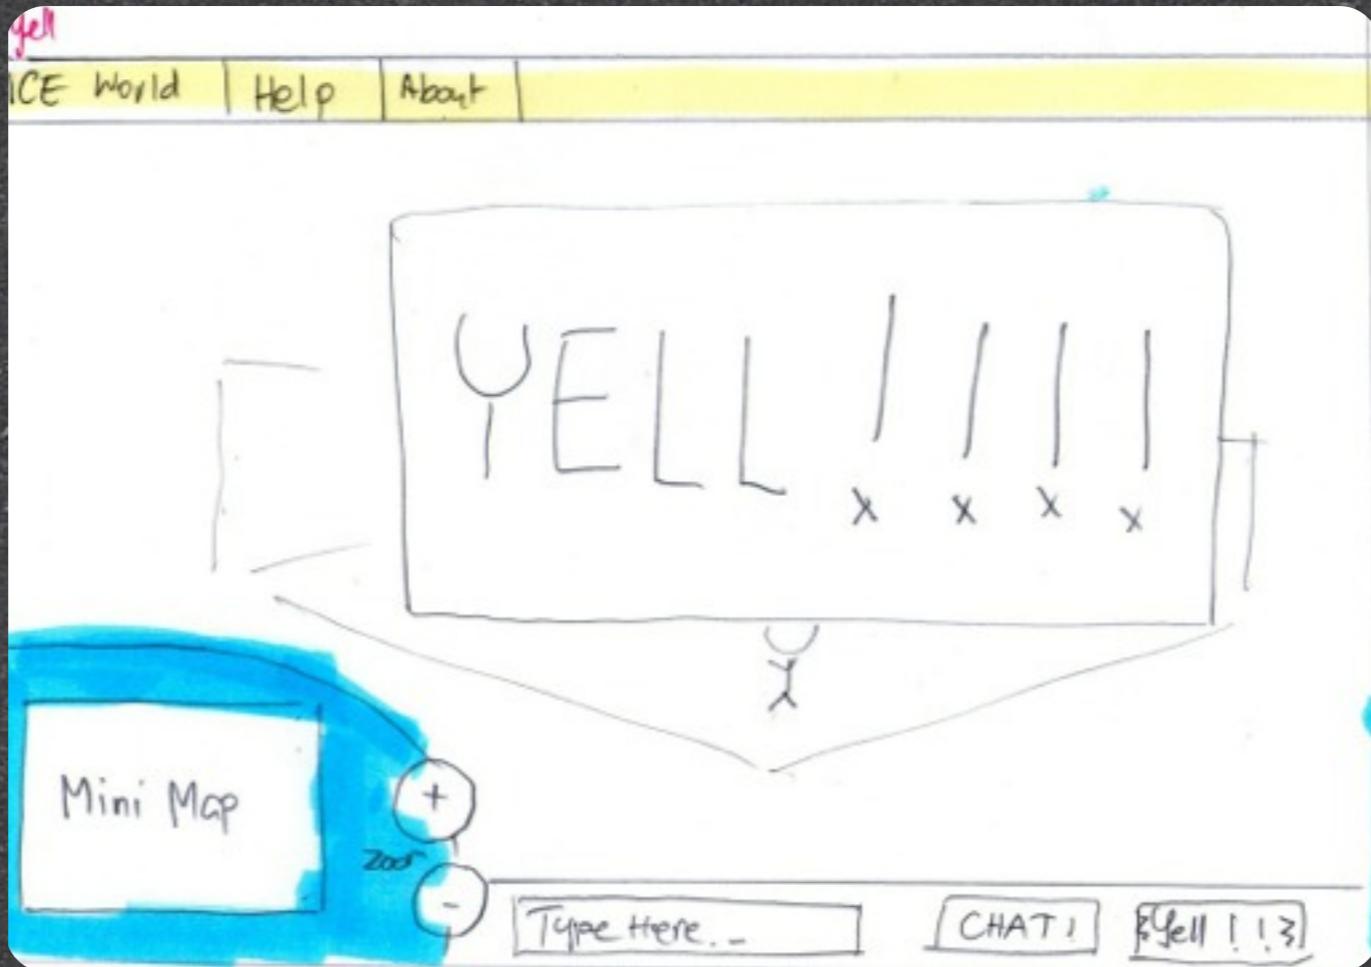

- This is what you will see in the ICE World. On top left corner, the log-in button will change to log-out button. Your character will be at the center of the screen on the area provided with an arrow pointing to your character which indicates that this is you.
- At the bottom of the screen, there are mini-map that shows dots (positions) of Ice-tizens, Zoom-in/Zoom-out buttons, text area to type message, Chat and Yell buttons.
- Short-cut for zooms are CTRL+ and CTRL-

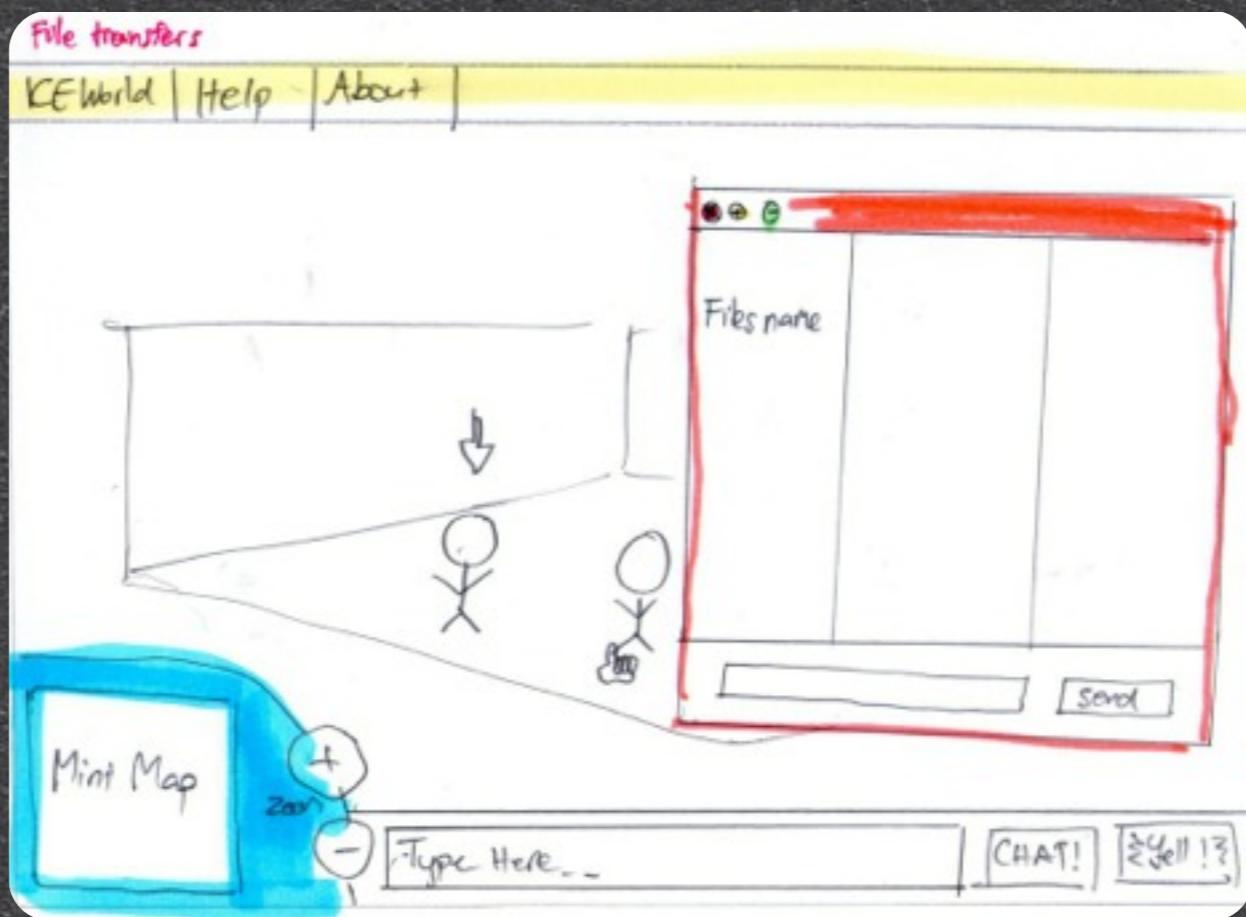

- For Ice-citizen to talk, you have to enter your message at the text area at the bottom of the screen ("Type Here") and then press 'CHAT!'. The message will pop on top of your Ice-citizen as shown in the picture.

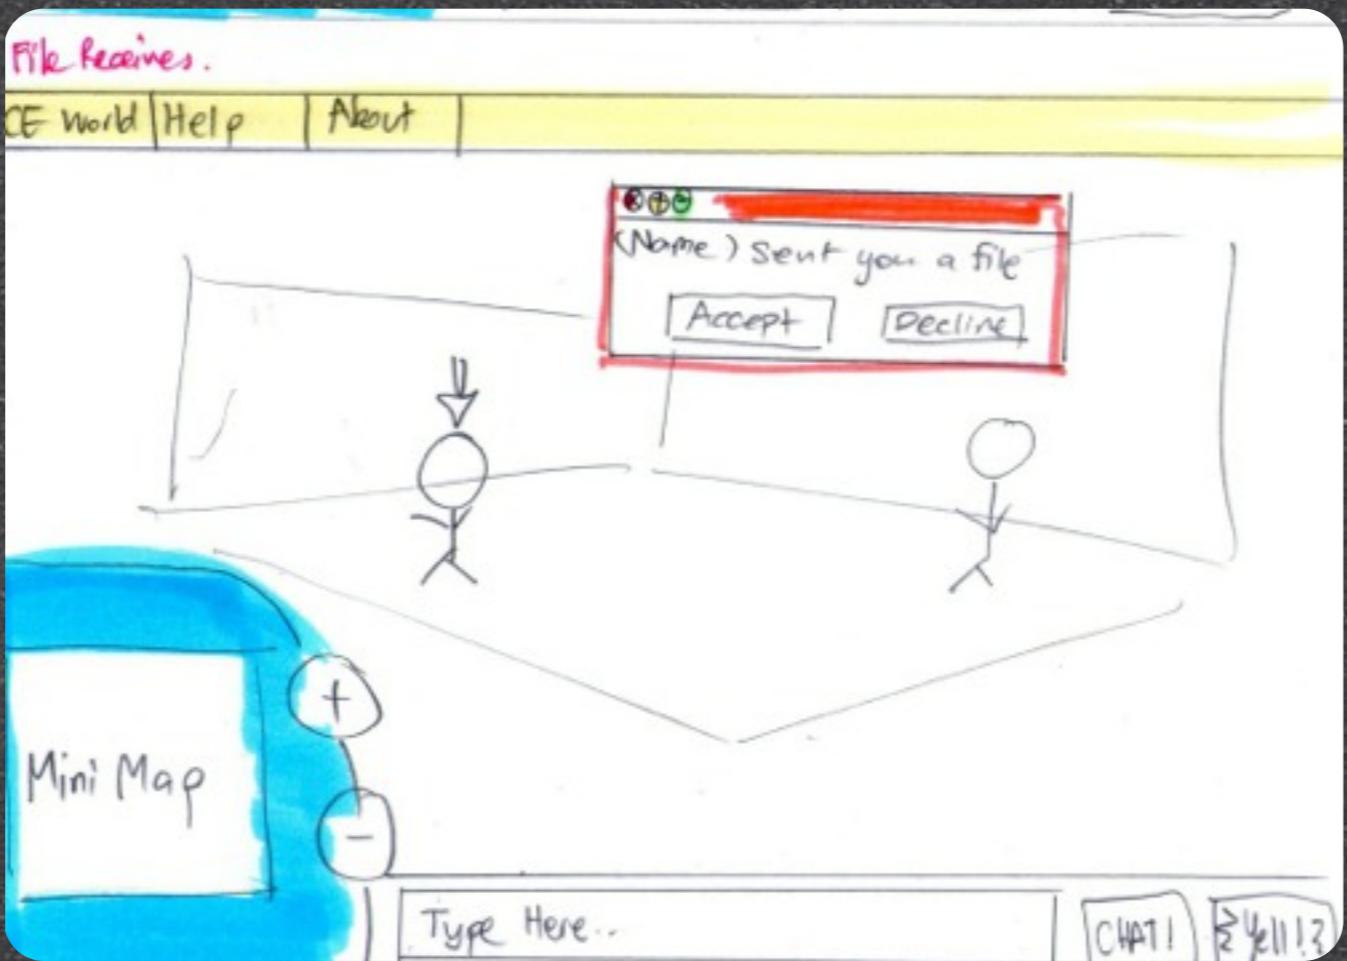

- As you click the mouse on any empty space, the Ice-citizen will walk to the destination

- Type in the textbox and press YELL! button.
- Text will show as a big animation and last for 5 seconds

- When user click on Ice-tizen and activate file transfer, the program will show window to select a file to transfer.

- >User can choose either to accept or decline a file that is transferred from other users by a pop-up dialog.
